A Text Book of Islamic Studies

This series presents a study of Islam in an attractive, comprehensive way for kids. Islamic studies must enable the kids to view Islam in all its aspects and accept it as a way of life; and that is what this series does. The book guides the kids in the various activities of his little world at school, at home and the environment around him. A complete guide to correct behavior and etiquette in the various stages and fields of life, this series moulds the kids' attitude and becomes his trusted companion, the transitional and delicate period of his teens. It not only presents the do's and don't but also refines the habits and manners, creating a rich and endearing personality. The process of learning includes knowing, understanding, accepting and doing or implementing a concept. A sure key to success, this series, in a graded form and in the kids own vocabulary, is a complete course in grooming and etiquette. It is an invaluable teaching aid for teachers and also to the parents. This is the Part-6 of the seven Books series (Multi Colorful Inside Pages).
